1. Introduction

1.1 The Cranmer Education Trust (CET) recognise that Modern Slavery is a growing global issue and is committed to eradicating the risk of modern slavery in our employment processes and our supply chains and operations.

1.2 We are a multi-academy trust company operating state funded schools. Our funding comes primarily from agreements with the Secretary of State for education and other grant funding from central and local government.

1.3 Our governance follows the model academy trust structure, with Members, a Board of Directors and an Executive team working to ensure the charitable objects of the company are achieved through the powers provided under our articles of association and within the regulatory framework set by the Department for Education.

1.4 We have an annual turnover of £47.7m in our financial year Sep 22 – Aug 23.

2. Human Resources

2.1 The Cranmer Education Trust employs all employees on the national terms and conditions for school teachers' (STPCD and Burgundy Book) and support staff (Green Book).

2.2 The CET has a trade union recognition and collective agreement, which establishes machinery to consult and negotiate with staff through the recognised trade unions.

2.3 The CET has comprehensive policies, and processes for employing staff with a system of rigorous employment checks. Recruitment processes are designed to ensure that all prospective employees are legally entitled to work in the UK and to safeguard employees from any abuse or coercion. CET consider the risk of slavery, including forced labour to be low in the directly employed workforce.

2.4 The CET is committed to providing a safe working environment for all and has a range of policies and procedures in place covering building safety, staff safety and contractors. CET has specific reporting tools in place to enable people to report an accident or incident should the need arise, and it adheres to current health and safety legislation.

2.5 CET does not employ anyone under the age of 16. Occasional placements (usually during summer holidays) for pupils over 16 from our schools may be accepted.

2.6 Living wages are paid – CET's lowest paid salary range is above the living wage.

3. Supply Chains

3.1 CET have around 1200 direct suppliers across the UK. These are predominantly local suppliers of education equipment and services. CET also buy from major national suppliers in areas such as utilities, catering, and cleaning. CET's invitation to tender for major contracts includes a selection criterion requiring adherence to the Modern Slavery Act as mandatory minimum standard - pass/fail.

4. Assessment of Modern Day Slavery in our Supply Chains

4.1 CET will ensure that efforts towards combatting modern slavery are targeted towards the highest risk areas. We intend to base this risk assessment not only on our own understanding of our supply chains, but also on publicly available research and information which identifies particular industries and countries which pose the biggest risk of human trafficking and modern slavery. We intend to review our risk assessment (and update it if necessary) once every 2 years.

We currently anticipate that our areas of highest risk are:

| Modern Slavery Risk Assessment | | |
|--|--|--|
| Identified risk | Assessment of risk | How is our business affected? |
| The highest risk suppliers for us are: Suppliers of Utilities | Oil extraction is the main source of the energy sector. Several globally significant suppliers of oil have poor human rights records which leads to an increased risk of exploitation. | All of our sites need to use energy and have little choice but to purchase from the large companies which supply this. |
| Suppliers of Uniform | Manufacturing is often outsourced to countries with lower labour costs which increases the risk of use of slavery | All schools have own uniform sold by third party supplier. |

5. Due Diligence Process

5.1 We have in place systems and procedures designed to:

- Perform due diligence on our existing and potential suppliers.
- Identify and assess potential risk areas in our supply chains.
- Mitigate the risk of slavery and human trafficking occurring in our supply chains.
- Monitor potential risk areas in our supply chains.
- Protect whistle blowers.

6. Training

6.1 To ensure a high level of understanding of the risks of modern slavery and human trafficking in our supply chains and our business, we provide training to our staff.

7. The Effectiveness of our approach to Combatting Modern Day Slavery

7.1 We measure the effectiveness of our approach to combatting modern slavery in the following ways:

- Home Office Modern Slavery training completed by central executive HR and finance employees.
- Raise awareness through sharing Modern Slavery Statement with Trust Board and JCNC
- Deputy Chief Operating Officer with responsibility for contracts is Contract Management Foundation Level certified.
- Review procurement policies.
- Begin mapping high risk suppliers.

8. Plan for 2024

8.1 During 2024 we plan to take the following key steps to further strengthen our approach to combatting the risk of modern slavery and trafficking in our supply chains:

- Undertake Contract Management Foundation Level course, endorsed by the DfE.
- Review procurement policies.
- Review suppliers for key areas of risk.
- Consider potential modern slavery impacts during procurement practices.
- Increase training to raise internal awareness.
